THAT was a fine combination of steel and snow we had for Christmas.

The mother of Senator Voorhees is still living in Indiana at the age of ninety.

J. L. M. Tary has been elected to succeed Senator Wade Hampton, of South Carolina.

A spray of Koch's lymph is soon to go to Louisville to be used by the physicians there.

Mr. W. B. Haldeman has sent in his resignation as a member of the Democratic State Central Committee.

It reports are true a good deal of bad whiskey is being sold along down the I. & W. railroad in the vicinity of the depot. The authorities should look after the guilty parties.

President Harrison, in accordance with the recommendation of the House of Representatives, has issued invitations for the first monetary union at Washington on the first Monday in January.

President Harrison has appointed a very good, yet at the same time a somewhat obscure man, to succeed the late Justice Miller on the Supreme Court bench. Grover Cleveland, of Indiana, was the man for the place.

Gross charges have been preferred against Pension Commissioner Hamm for his pernicious interference in the elections in Indiana, but a Republican Congress refuses to make an investigation into his conduct.

GOVERNOR HARRISON has made some commendable strides in the matter of substantial improvements during the past year, and the outlook is much better for greater and better things in the year to come. In 1897, the year upon which we are about to enter, let every man who has the welfare of the town at heart, exert himself for an increase of business.

Mr. John J. McHenry is a candidate to succeed his father as delegate to the Constitutional Convention from Ohio county. Regarding the necessary talk and ability in the young man, it is through the great admiration felt for his father, it is more than likely the people of Ohio will elect young McHenry, although he has two very strong opponents.

The Indians are about to wind up their "war dances," by holding a peace. Two hundred and fifty of Sitting Bull's band and three hundred of the Sioux's have surrendered. The peace Indians had a well given up their hunting grounds and forever submit to peace with Uncle Sam, or the son of their mother who will eventually be slaughtered.

President Harrison has issued his proclamation directing the World's Fair to be opened at Chicago, May 3, 1899, and to close the last of October. The millions of dollars to be expended on the exhibition, and all the nations of the earth have been invited to be represented. It will be the greatest of the world of a public exhibition that was ever gotten up in this country, or that is likely to be attempted for many years to come.

Gov. Hill, of New York, has announced himself a candidate for the Presidency in 1902. A large majority of the Democrats all over the country favor the nomination of Grover Cleveland, and unless there is a decided change in public sentiment along this line, nothing will be more certain than the defeat of Mr. Hill before the National Democratic Convention that is to make a nomination in '02. The candidacy of Gov. Hill can do nothing more than divide the Democratic party in the great State of New York.

EX-PRESIDENT GROVER CLEVELAND made another one of his modesty public speeches, before the Tammany Club in New York last week on the subject of "The Campaign of Education." With the extensive knowledge the Ex-President has of public affairs, and the strong hold he has upon the hearts and minds of the intelligent masses of this country, David B. Hill, no other man will be likely to do more than divide the National Democratic Convention for the Presidency in 1902.

Hon. J. J. Ingalls may yet be returned to the United States from Kansas. With a fair vote in the Kansas Legislature he has been the defeated legislator; but that is what he doesn't mind to leave. The scheme is to return him or pronounce the defeat of the constitutional body because of the presence of 18 members from new counties who have power to legislate, but in right to vote. In short, if they vote for Ingalls they have the right to vote in right to oppose him. What wonderful loss of constitutionality and justice for a man whose record speaks against Southern legislation. If Mr. Ingalls is defeated we shall hear something from him that will set the Gettysburg hair running in the back of our heads.

In the press of the State it is to be credited with a true reflection of popular opinion, the people are greatly disappointed in the result of the election of the Constitutional Convention. Omnipotent growth came up from all quarters. It was expected that the delegates sent up by the people would strike from the present constitution a few of its features that were abuses and add here and there improvements which experience seemed to point out as necessary. But contrary to that expectation, the body seems to think its prime duty is to change all things, to revolutionize the government, to have nothing as it was before, and to tread in untried and dangerous paths. The people are seriously apprehensive that the new instrument may prove a Pandora's box of evils, hard to be understood and requiring years of costly and painful experiment to construe. They want nothing of the kind, and if they are left with the power of refection, its fate may even now be foreseen.

How beautiful is the concept of Santa Claus! He is indeed a divinity that always brings joy and not grief. In all Christian lands he reigns supreme, nor war, nor pestilence, nor famine, nor ever grinding poverty stays his beneficent hand. He comes as annually as the season in his phantom of charity and love and leads, faithful in the end, the gift-giving joy he brings, age and childhood and middle life alike worship at his shrine. For awhile the material and the gross and the wearing things of life are hushed aside to give him room. His way, though short, is complete. Yet the aroma of his brief reign remains to cheer and gladden. He leaves his memory and his gifts to be cherished till he comes again. It is his to penetrate the darkest gloom, and to carry to the dreariest heart the light of charity's sweetest rays. The greatest of these is charity. Inauguration and impossible is an unimpaired conception of his benignity. They are not "of the earth, earthy." They proceed from a fountain pure, like streams that flow from the throne of Humankind is better because of the mythical, yet real St. Nicholas.

Awful Story of the Death of the Higbee Children.

THE FOUR INNOCENTS UNDOUBTEDLY KILLED BY ARSENIC POISONING.

An Inquest into the Murders Being Conducted by a Magistrate.

The Family and Consulting Physicians Agree in All the Accused Being Murdered.

[Continued.]

The mystery surrounding the Higbee poisoning case has not been dispelled by the inquest. The investigation began at 10:30 o'clock Friday morning, and will probably last until Wednesday at noon. Several startling developments have already been made, and others are expected.

The inquest is being held in the school building at Nidmurg, Meade county, near where the four children died. The greatest excitement exists throughout the community, and the little town has been thronged with people for the past two days, many of whom came from miles around to hear the testimony.

The investigation is carried on with the utmost care, and every effort is being made to discover the criminal, whoever he or she may be. The house is a large one, but not large enough to hold the crowd who came to the inquest, and many stood outside waiting for the result of the examination.

The husband of the accused woman seemed less concerned during the examination than anybody else in the room and appeared perfectly incapable of appreciating the serious situation. B. V. Payne, a magistrate, conducted the inquest. The examination of the County was conducted by County Attorney Thomas H. Hamilton. Dr. H. K. Pusey, of this city, acted in behalf of the defense in the absence of Major Klamm. The following is the jury: Samuel Lewis, Charles Osborn, William Adams, George and John Dawson.

The first day of the inquest was spent in examining for the physicians who attended the children during different stages of their fatal sickness. The second day was occupied in hearing the evidence of the remaining doctors and the kindreds of the accused woman and her husband. The first sensation was testimony showing that two physicians had been summarily dismissed by Mrs. Higbee, because, as they testified, they had intimated that the death of her children were unnatural and suspicious.

Higbee child on October 13. The next day it died, and I diagnosed the case as cholera infantum. On October 20, the second child died. I diagnosed the case as cerebellar spinal meningitis. I was called to see the third child November 11, and found her in convulsions and vomiting violently. As soon as I saw her I became alarmed and called in another physician for consultation. I procured the assistance of Dr. Walker and Hamilton from Garrettsville. The child died while we were there. I told them my dilemma; that I was not satisfied with my other diagnoses, and together we determined to learn the real cause of their deaths. I had no definite suspicion then. The similarity of their cases and the percolity of their death appeared strange, but I did not think they were murdered. We examined the food and took several meals at the house, and found nothing amiss. I concluded that it was the sanitary arrangements of the house, and prevailed upon Mrs. Higbee to move out at once. They had scarcely been in their new home two weeks before I heard that Halley, the eldest child, was dead. I had not

They Have a Bonanza. It seems the owners of Dr. Drummond's Lightning Remedy for Rheumatism have a Bonanza, as their remedy has never been known to fail in a single case. There is certainly room in the market for a medicine that will do what they claim for this wonderful preparation. Although the price is \$5 per bottle, if it does much else than to cure the price should be \$100. If the drugist has not got it, the remedy will be sent to any address by prepaid express on receipt of price. Drummond Medicine Co., 4536 Maiden Lane, New York.

Death of City Marshal Graham. We sadly chronicle the death of Warden P. Graham, which occurred on Sunday morning, Dec. 28, 1900.

For the last five or six years he has held the position of city marshal. Freely in body, he was a giant in courage. He was absolutely a stranger to fear in the discharge of his official duties. Every law-breaker knew that dare not attack a combat with him. The lawless spirit which slew poor Ed Thompson at Hardinsburg, was cowed and cowed in the presence of Mr. Graham.

The city owes his memory a debt of gratitude. He fell at his post of duty. Even when his poor, tottering frame was unequal to the task, and his vital were wasted by disease, he was always looking after the good order and peace of society while the people slept in their warm beds. But at last he yielded to the inevitable and lay passed away.

The city has lost a faithful public servant. The public, alike with his family, are the sufferers. The question is, who can fill his place?

The funeral services were held at 11 o'clock on last Monday at the Methodist church, and at that is mortal of Marshal Graham was laid to rest.

The Editor's Prize. Mr. A. K. Hawkes has gained a national reputation as a practical optician, and his celebrated spectacles and patent spring eyeglasses are known throughout the United States. We are writing this article with a pair of his New Crystallized Lenses, and they seem to us as transparent as light itself, and with them the finest print is as clear as in youth.—Editor Christian Advocate.

A Heavy Holiday Trade. The holiday trade of Cloverport this season was the heaviest ever known. The streets and stores were jammed with buyers. The dealers were compared with beautiful and artistic displays, and reaped a rich reward. The volume of the trade belied the supposed closeness of money. Everybody seemed supplied with sufficient to provide his or her wants. The express trains and steamboats carried away large supplies of holiday goods to distant points.

The increasing trade was evidenced by the large stocks kept by the merchants, who are ever alive to the wants of the people, and their heavy sales apparently give promise by hard times show the growing importance of Cloverport.

Memorial Services at the Baptist Church.

Long years ago when here Samuel Oldham Christian, a son of Dr. John P. Christian and Eveline Christian, his wife, who was a daughter of Obadiah Newman. Many of us remember the little lame boy, jumping about on his little crutches. That boy, now grown to stalwart, intellectual and physical manhood, preached at the Baptist church last Sunday morning.

The occasion was especially interesting. Rev. H. T. Lampton, venerable in years and patriarchal in appearance, was here to join in the services which followed the placing of a memorial window in the building in honor and grateful remembrance of his services as pastor several years ago.

The occasion revived old recollections and tender memories, and was enjoyed by a large audience.
